ESTABLISHED 1974

2026 TRADE  
CATALOGUE

# ABOUT US

We are a motorcycle parts & accessories wholesaler located in Southampton (UK). We have been a trusted supplier to motorcycle retailers & garages across the UK for over 50 years (since 1974). We are extremely proud to be an independent family run business that is now running successfully into it's 3<sup>rd</sup> generation of the family. We pride ourselves on creating strong customer relationships whilst providing a personalized service.

**We specialise in supplying an extensive range of high quality branded items to the Road & Off Road market. Brands we stock can be seen below:**

We are an extremely friendly and highly experienced team here to help you with your needs as a motorcycle retailer or garage.

We are able to offer a same day dispatch / next day delivery service on the majority of orders and use a variety of couriers.

**For enquiries or to open an account please contact us:**

**sales@motofax.uk**  
**02380 511999**

# TERMS OF BUSINESS

## HOURS OF BUSINESS

**Monday-Thursday:** 8am-5pm  
**Friday:** 8am-4pm

## HOW TO ORDER

Please either **telephone** our warehouse team or **email** our sales team to place your order.

## DELIVERY

We will endeavour to ensure all orders for the overnight carrier service placed before 3pm will be dispatched for next day delivery.

## PAYMENT TERMS

Payment due at time of dispatch, except credit account customers, where payment is due 30 days from date of invoice.

## PRICES

Any price lists within this brochure are correct at the time of issue. **These are trade prices excluding VAT.** Motofax reserve the right to alter prices without prior notification. All goods will be invoiced at prices relevant on the day of invoicing.

## CARRIAGE & PACKING CHARGE

Orders under £150.00 including VAT not delivered on Motofax van delivery will incur a charge for carriage. Most orders exceeding £150.00 including VAT will be carriage free within mainland UK (Excluding Scottish Highlands, Northern Ireland & Isle of Man).

## TITLE OF GOODS

Ownership of all goods supplied remains with Motofax until payment has been made in full.

## LITHIUM BATTERIES

Designed to offer a higher performance thanks to highly reduced weight, low self-discharge, much longer battery life, Lithium battery range covers most of the existing circulating parc fitments.

### Ready to use

Just plug and play.

### Lighter weight

Up to 70% lighter than Lead Acid batteries.

### Extensive cycle life

Over 2000 cycles.

### Heat resistance

Up to 230°C.

### Robust brass terminals

To enhanced electrical performance.

### State of charge indicator

Monitor the state of charge with the indicator screen on the top.

### Spacers

For superior performance and limited vibrations, our Lithium batteries are much smaller than the Lead Acid ones. Different spacer types are delivered with each battery to fit the casing easily.

# FRESCO/BIG ONE EXHAUST SYSTEMS

**WE ARE  
IMPORTERS  
OF FRESCO  
EXHAUSTS &  
SILENCERS.**

The brand Fresco was born in the 70s.

In the past it has supplied exhausts to manufactures such as Aprilia, Aspes, Ancillotti, Beta, Gilera, Husqvarna and Cagiva with the mythical 500 GP bike .

Today Fresco manufactures exhausts and silencers for 2 and 4 stroke off-road vehicles: Cross-Enduro- Supermotard-and Quad.

The company consists of several divisions: Designer, Engineering, Research and Development & Quality.

Alongside it's partners, Fresco supports several teams involved in the most prestigious Enduro and Cross events for the development of each single component.

The brand Fresco is synonymous with Competitions, Racing and Sports.

# FRESCO/BIG ONE EXHAUST SYSTEMS

## 2-STROKE "FACTORY" EXPANSION

The Factory expansion is made of variable thickness steel sheet. This feature provides greater protection in the most exposed parts to damage and maintains a good sound to the exhaust system.

Completely handmade, the look is eye-catching and the welded joints are contained in such a way as to avoid protrusions.

It allows you to gain power over the entire range of use.  
Compatible with the original silencer.

## 2-STROKE "CHROME" EXPANSION

The Chrome expansion is made of variable thickness steel sheet. This feature provides greater protection in the most exposed parts to damage and maintains a good sound to the exhaust system.

The outer coating in nickel + chrome, which guarantees a great resistance to weathering. The development is optimized to reduce bulk and keep the expansion pipe very close around the engine.

For the enduro version the expansion softens the engine output without penalizing the maximum power. Compatible with the original silencer.

## 2-STROKE "CARBY" CARBON SILENCER

The 250/300cc carby silencer combines aluminium lightness, stainless steel robustness and carbon fibre flexibility. The design is innovative and lightweight.

High quality sound absorbing material ensures long life compliance with the FIM road noise standards.

It is compatible with the original expansion and comes complete with the rubber anti-vibration fixing.

**WE ARE  
IMPORTERS  
OF BIG ONE  
EXHAUSTS &  
SILENCERS.**

**Big One began its activity in 1994 when a small group of craftsmen in Italy realized their project to create a small company specializing in the production of expansions and sports silencers.**

**The first creations were intended for small 2-stroke engines, in particular scooters that were very popular in moped sales throughout Europe.**

**From the very small initial headquarters, they moved to the first real production room, still the heart of the company, which has been expanded several times to reach its current size.**

**The workforce has also slowly expanded, with qualified professionals joining the Big One team, as well as young enthusiasts who are trained and prepared within the company itself.**

**More and more modern machinery has been purchased to improve the performance, quality and style of the products.**

# VEE RUBBER TYRES/TUBES

Thanks to consistent growth throughout the last few decades, Vee Rubber Group has established itself as a successful vehicle tyre manufacturer and exporter.

Vee Rubber was formed in 1977 as a manufacturer of bicycle and motorcycle tyres and tubes.

Being one of the largest natural rubbers producing and exporting countries, Thailand has tremendous potential to produce added value finished rubber products from natural rubber, especially tyres for all types of motorcycles and other vehicles.

Vee Rubber Group is the leader in Thailand, in terms of the variety of vehicle tyre types produced. These are carefully made from selected raw materials using modern manufacturing technology and processes.

All products are of the highest quality possible. Vee Rubber makes a wide variety of tyres and tubes. Good value products, and targeted marketing ensure group sales in more than 100 countries around the world.

# MAXXIS TYRES

Maxxis International is committed to delivering high-quality tyres to the world at affordable prices. Well-known for their high-performance bicycle tyres, Maxxis also produce tyres for motorcycle, car, van, truck, HGV, agricultural vehicles and more, all to an outstanding quality.

Maxxis products are thoroughly tested in their own facilities and at the world's leading tyre test centres. In addition, Maxxis engineers test their tyres with national and world-class champions, alongside teams all over the world.

Maxxis utilise the most advanced manufacturing equipment and engineering facilities in the industry, with a stringent professional evaluation before the production of every new tyre.

**Maxxis introduces the MaxxCross EN enduro tyre which is available in two rear tyre compounds.**

- Designed for aggressive cornering even in the deepest of mud.
- E-marked street legal.
- Ideal for most enduro conditions.
- Side blocks provide accurate steering in muddy conditions.

## BRAKE PADS

### Double-H™ Sintered Superbike Brake Pads

For serious riders and fast streetbikes, the much acclaimed Double-H™ grade sintered pads from EBC are in a class of their own, many arriving with stainless heat radiator plates.

### R90 Approve Premium Organic Replacement FA Streetbike Brake Pads

The flagship all time EBC best selling pad for street bikes of any size. A progressive long lasting organic pad with fingertip stopping power.

### R90 Approved Brake Pads for Motocross or Enduro Bikes

TT or X pads are carbon-copper-based, medium-durability pads suitable for all types of off-road vehicles. They are also R 90 approved, making them safe for street use in the EU. The benefits of the TT/X grade include cooler operation, improved brake "feel," and reduced disc wear.

### EPFA Sintered Fast Street and Trackday Pads

A high friction fast street and track-day or lapping event pad with powerful super quiet braking, the deluxe option for heavier and faster bikes who prefer sintered.

### GPFAX Sintered Race Brake Pads

For Racing and Track riding the GPFAX pad range sets the bar. An ultra high performance ZERO fade sintered pad that is a clear favourite and used by many race and Moto GP teams across the world.

### EBC V-Pads™ Semi-sintered™ Touring Bike Pads

A semi-sintered high mileage super quiet pad for heavy streetbikes including big twins.

### ATV Or Dirt Sintered Pads

A USA made sintered copper alloy pad with long life for general Utility riding in off road conditions on MX, ATV or UTV machines.

### VLD Limited Edition Chrome Pads

Featuring the new era Vee pad semi sintered technology with chromed backing plates, also includes NRS hook technology for guaranteed bond strength.

### MXS Series Moto-X Race Pads

A sintered copper alloy off road race pad with a difference, diamond ground surface finish and super high friction level with resistance to abrasion.

### SV Series Severe Duty Pads

A sintered copper alloy heavy duty off road pad ideal for ATV and UTV where longest life required.

### SXR Side By Side Race Formula Brake Pads

A race grade sintered copper alloy pad with extra grip and durability for heavier UTV side by side machines.

With ever increasing horsepowers of motorcycle engines, clutches are ...

### **DRCF Carbon Fiber Lined MX Race Clutch Kits**

The ultimate moto-x and ATV heavy duty clutch kit designed for race use.

### **CKF Carbon Fiber Lined MX Race Clutch Plate Sets**

CKF is the name of the new EBC carbon fiber impregnated motocross & ATV clutches

### **SRC Street Racer Clutch Set**

An aramid paper lined plate set complete with heavy duty clutch springs. The SRC kit is ideal for heavy sport bikes.

### **EBC Clutch Installation and removal tools**

Made in the UK by EBC Brakes, these laser cut clutch tools make clutch removal, loosening of the drive shaft bolts and re-tightening a breeze, without any fear of damage to your expensive clutch basket.

**EBC**  
BRAKE SHOES

**EBC Regular Street  
and Grooved Off-Road  
Brake Shoes**

EBC Brakes™ brake shoes are made using high-pressure die-cast aluminium platforms with 100% asbestos-free bonded brake linings in two versions.

1. First for street bikes EBC motorcycle brake shoes which are radius ground, edge trimmed and also feature lead in & lead out chamfers at lining ends and original equipment style brake shoe springs.

They are a perfect replacement for OE brake shoes as they are radius ground to fit exactly into the brake drum and are simple to fit using the OE style brake shoe springs included.

2. The EBC SG off-road range featuring wide grooves to dispel dirt dust and water from the braking surface as a great solution for Moto X and ATV/UTV riders improving brake performance and extending drum life.

**EBC Water Grooved  
Brake Shoes**

EBC WATER GROOVED series brake shoes are made using either, high pressure die cast aluminium platforms for most two wheel machines, and ATVs or pressed steel platforms for most ATVs with bonded brake linings.

**Features**

- Disperse water dust and mud from the braking area
- Improves braking and drum wear life

All shoes are radius ground and edge trimmed to fit precisely in your brake drum and also feature lead in and lead out chamfers at lining ends and original equipment style brake shoe springs. The multiple angled liner grooves are designed to channel away dirt, dust, water and debris from the braking area to improve braking and extend shoe and drum life.

A great choice for off-road riding

# **EBC**

## **BRAKE FLUIDS**

### **SUPER DOT 4 BRAKE FLUID**

BF307+ high performance Super DOT 4 brake fluid has been specially formulated to provide outstanding performance for braking systems routinely operated at extreme temperatures making this fluid ideal for fast street use, track days and racing.

### **DOT 4 BRAKE FLUID**

DOT 4 brake fluid is a high quality brake fluid recommended for use in the hydraulic brake and clutch systems of all cars, commercial vehicles and motorcycles for which a glycol based DOT 3 or DOT 4 fluid is specified. With a higher boiling point than DOT 3 fluid, this fluid is ideally suited for higher performance vehicles where the braking system routinely reaches moderate brake temperatures.

### **DOT 4 LOW VISCOSITY**

DOT 4LV low viscosity brake fluid is a very high specification brake and clutch fluid, exhibiting exceptional viscosity performance even at low temperatures (max. cSt @ -40°C) which makes this product especially recommended for use in the hydraulic brake and clutch systems of modern vehicles fitted with ESP/ASR (Electronic Stability Program) systems. This product can be mixed with other glycol fluids of the same base and is recommended for use in the hydraulic brake and clutch systems of all cars, commercial vehicles and motorcycles for which a glycol based DOT 3 or DOT 4 fluid is specified.

### **DOT 5.1 HIGH PERFORMANCE**

DOT 5.1 high performance brake fluid is recommended for use in the hydraulic brake and clutch systems of all cars, commercial vehicles and motorcycles for which a non-petroleum based fluid is specified. DOT 5.1 has a significantly higher boiling point than standard DOT 3 and DOT 4 fluids and is therefore well suited to modern high performance vehicles and/or vehicles fitted with ESP/ASR systems. Can be mixed with other glycol fluids of the same base e.g. DOT 3, DOT 4 and DOT 5.1 fluid types.

### **DOT 5 SILICONE BRAKE FLUID**

DOT 5 silicone brake fluid is a very high specification fluid based on polydimethylsiloxanes (silicones) and offers many advantages over conventional glycol based fluids. Silicone fluid does not absorb water from the surrounding atmosphere while in service and therefore offers greatly extended service life whilst improving corrosion resistance of the main components of the braking system. Recommended for use in the hydraulic brake and clutch systems of all cars, commercial vehicles and motorcycles for which non-petroleum based fluid is specified.

# HIFLOFILTRO

Providing unbeatable performance and exceptional value, Hiflofiltro is the best-selling brand of aftermarket filters for motorcycles, scooters, and ATVs worldwide.

With the experience of more than six decades, continuous research and development and modern production facilities, Hiflofiltro manufacture some of the best quality filters in the world.

Hiflofiltro is the most extensive filter range in the aftermarket. There are applications for almost every motorcycle, scooter, and ATV that uses an oil filter. With more than two million filters in stock and ready for delivery, supply is never an issue.

**HIFLOFILTRO  
CATALOGUE  
AVAILABLE ON  
REQUEST OR  
ONLINE.**

## **PRODUCTS AVAILABLE INCLUDE:**

- PREMIUM OIL FILTERS
- "RC" HIGH PERFORMANCE FILTERS
- OE REPLACEMENT FILTERS
- DUAL STAGE RACING FOAM FILTERS
- "DS" DUAL STAGE SCOOTER FOAM FILTERS

# HIFLOFILTRO

## **Premium Oil Filters**

Hiflofiltro is the world's first and only TÜV approved motorcycle oil filter. Constructed using the best materials available, all Hiflofiltro oil filters meet or exceed original equipment performance levels. Available for street, scooter, motocross, enduro, ATV and UTV.

## **"RC" High Performance Oil Filters**

Developed and manufactured to very high specifications to exceed the demands of modern racing engines and extreme racing conditions, the Hiflofiltro RC range provides numerous advantages for both road user and track racer.

- 17mm cross drilled nut enabling easy removal and lock wiring for race use
- Advanced high performance tri-fiber filtration media for optimum filtration, high capacity, and improved oil flow. Capable of capturing particles as small as 5 microns.
- Tough heavy duty steel canister capable of withstanding extreme pressure
- Special fibre or rubber coated relief valve for perfect sealing
- Compatible with all oil types, mineral and synthetic

## **OE Replacement Air Filters**

Hiflofiltro air filters are manufactured to fit the factory air box and are a direct replacement for original equipment filters. Top quality powerflow filtering media, developed for modern high performance engines.

## **Dual-Stage Racing Foam Air Filters**

Competition off-road air filters manufactured in the Netherlands using a special dual-layer foam, formulated for maximum filtration and optimum air flow for improved power. Top quality materials and superior construction allow the filter to be used over and over again without any loss of performance. Available for most motocross and enduro models.

## **"DS" Dual-Stage Foam Scooter Air Filters**

With identical construction to our winning motocross racing air filters, our "DS" Dual Stage filters feature two layers of special Hiflo foam, providing dual advantages of high air flow for top engine performance and maximum filtration.

# NGK

With over 80 years of experience in the field of ceramics, NGK has built a global reputation as a leading ignition and sensor specialist, providing high-quality spark plugs, glow plugs, ignition leads and coils, lambda, EGT, NOx and MAP/MAF sensors.

NGK Spark Plugs is a leading manufacturer of spark plugs and related parts in the UK and globally. They are known for their quality and are often chosen by both vehicle manufacturers and aftermarket retailers.

NGK offers a wide range of spark plugs, including those made with standard materials like copper as well as higher-performance options like iridium and platinum.

### **SPARK PLUGS AVAILABLE INCLUDE:**

- STANDARD SPARK PLUGS
- IRIDIUM IX SPARK PLUGS
- LASER IRIDIUM SPARK PLUGS
- RACING SPARK PLUGS

# JT SPROCKETS

JT Sprockets is the world's leading manufacturer of aftermarket sprockets, constantly raising the industry's standards for quality and service. Committed to supplying the most durable, best quality sprocket available in the marketplace worldwide. JT Sprockets produce and sell more sprockets than all the other aftermarket brands combined.

JT sprockets are made using only the best available materials. Aviation-grade 7075-T6 aluminium alloy for lightweight competition sprockets, SCM420 chromoly steel alloy for front sprockets, and are the only sprocket manufacturer using the ultra-durable high carbon C49 steel for rear sprockets.

The JT Sprockets factory is the largest and most advanced in the world. It is fully equipped with high accuracy machinery, including the latest generation of CNC computer design and computer controlled metal cutting equipment.

The essence of a high quality sprocket is in the high precision of manufacturing and the inherent quality of the material. Through accurate machining, JT ensures maximum durability and performance.

## JT SPROCKETS RANGE INCLUDES:

- STEEL SPROCKETS
- RUBBER CUSHIONED SPROCKETS
- RACELITE ALUMINUM SPROCKETS
- SELF CLEANING STEEL FRONT SPROCKETS
- SC LIGHTWEIGHT STEEL REAR SPROCKETS
- DUCATI CARRIERS

**JT SPROCKETS

# JT SPROCKETS

## Steel Sprockets

JT Steel Sprockets are manufactured using only the finest grade of C49 high carbon steel for the rear sprockets, and SCM420 chromoly steel alloy for the front sprockets. The JT Steel Sprockets range now contains over 2,500 parts for all motorcycles and ATVs.

## Rubber Cushioned Front Sprockets

JT rubber cushioned sprockets offer the same quality, design, and OEM proven technology as used by major Japanese motorcycle manufacturers since the early 90s to dampen chain impact.

## RaceLite Aluminium Rear Sprockets

Precision CNC machined to JT's uncompromising standards from certified 7075-T6 Ergal aviation grade aluminium alloy, the JT RaceLite sprocket range is designed and engineered to withstand extreme pro-race conditions, providing maximum strength and durability at minimum weight.

## Self-Cleaning Steel Front Sprockets

MX-series steel front sprockets are manufactured to exacting tolerances and designed with special self-cleaning grooves for added life and performance. Made from the best chromoly steel and fully heat-treated for maximum durability, the MX range of front sprockets are designed for champions.

## SC Lightweight Steel Rear Sprockets

The new standard in steel rear motocross sprockets. A unique self-cleaning design keeps the contact area clean from dirt and mud while significantly reducing weight. Made from heat-induction hardened C45 steel which lasts up to six times longer than a 7075 aluminium sprocket and greatly extends chain life.

## Ducati Carriers

Lightweight rear sprocket conversion for OEM Ducati single-piece sprocket allows for quick, affordable replacement of the rear sprocket.

# GRANVILLE PRODUCTS

A British manufacturer of quality motor oils, automotive chemicals and workshop ancillaries. They distribute some of the industry's top brands including Autosol.

Dedicated to providing a world class service to their customers and supplying them with the best that the automotive industry has to offer.

## ITEMS WE STOCK:

- FSV 5W/30 (5 LITRES)
- AUTOSOL METAL POLISH
- AUTOSOL STAINLESS STEEL POLISH
- CARB & AIR TAKE CLEANER
- BRAKE & PARTS CLEANER
- INSTANT GASKET (CLEAR)
- LOCK THREAD

## GT85

GT85 is popular among amateurs and professionals in the motor racing, biking, cycling, mountain biking, and motorcycle sports industries.

It is particularly effective for gear transmissions and chains. This powerful spray flushes out dirt and grime and protects all metal and plastic parts.

400ML

## WD-40

Penetrating oil in a spray. Flexible straw system, great for hard to reach places. Ideal for loosening rusted joints or fixings whilst providing lasting protection from corrosion.

A hard-wearing, heat-resistant, flexible straw that can be used for a wide variety of applications.

400ML

# STAR LOCKS

**Star Locks: Simple and Effective Security for Two-Wheelers.**

Star Locks is a brand specializing in anti-theft devices for motorcycles, scooters, and bicycles. It offers a range of disc locks, U-locks, cables, chains, and alarms designed to provide effective daily protection, whether in urban areas or for occasional trips.

Designed for users seeking reliable and affordable security solutions, Star Locks combines ease of use, robustness, and good value for money.

## CHAIN + PADLOCK SET LENGTH 150CM

- Chain made of galvanized steel with square links
- Gold Chain.
- Very high resistance to sawing and drilling
- Screen-printed fabric cover
- Ultra-resistant lock
- Key-operated

## DISK LOCK 10MM

- Corrosion protection
- Shock resistance
- Sawing resistance
- Aluminium colour
- Key opening

# MAMMOTH SECURITY

## Mammoth Sold Secure Gold Approved

### 12mm x 1.2m or 1.8m Square Chain With Shackle Lock

**Code for 1.2m: LOCM007**

**Code for 1.8m: LOCM003**

- Sold Secure Motorcycle Gold approved
- Ultra heavy duty lock and chain
- 12x12mm Cro-Mo square steel chain
- 1.2m or 1.8m chain length
- Hardened steel lock body with double bearing lock mechanism
- Reinforced cylinder plates resist drilling and picking
- 11mm hardened Cro-Mo steel shackle lock
- Protective fabric sleeve

## Mammoth 10mm Square Lock & Chain

**Code: LOCMAM**

- 10mm square section chain
- 1.8m length
- Protective textile outer sleeve protects paintwork and rims
- 11mm hardened steel closed shackle lock

## Mammoth Security Bolt In Ground Anchor Sold Secure Gold Approved

**CODE: GRD001**

- Sold Secure Gold approved protection
- Heavy duty ground anchor
- Twin layer design increases protection
- Hardened steel construction
- For indoor and outdoor use
- Includes Anti-Tamper bearings
- Perfect for use with heavy duty chains and locks

## Mammoth Junior 2 Bolt In Ground Anchor

**CODE: GRD005**

- Heavy-Duty ground anchor
- Simply bolts into concrete surface
- Manufactured from hardened steel
- Suitable for outdoor and indoor use
